Dear Parents/Guardians

We, **Be Kind a Universal Language**, a registered Non-Profit Company, in partnership with **Foundation Global Exploration** in the Netherlands, are so excited to launch the planning of our 3rd Cultural Exchange Programme. We are passionate about developing and growing our youth, and part of that process is partnering with other organisations that share similar visions and goals.

This program will take place in the Netherlands in 12 – 25 January 2025, a total of 14 days including departure and arrival.

We would like to use this opportunity to brief you on the programme, the cost involved, as well as the legal requirements and the expectations running up to departure.

Participating countries: (India, China, Nepal, Thailand, Cambodia, Indonesia, Mongolia, Uganda, Mongolia, China, Tanzania, South-Afrika, Togo and Peru).

Our very first participation as BE KIND was in 2023, from 10 - 24 January 2023, and what an educational experience we've had.

All projects are organized and collaborated by, **Be Kind A Universal Language NPC** and its partners. Our Project Manager forms the connection between Global Exploration and local and international partners and projects. We aim to build sustainable relationships with all our partners.

The Programme

During this program, we will stay with host families, hostels, and in a holiday parks, visit several schools and universities, discuss Sustainable Goals with other students, visit Dutch cultural places, castles and caves, nature day, and many other interesting projects.

Part of the experience would be visiting various historical and current government entities within the Netherlands and will include a trip to Belgium, Germany, and Paris.

Students can explore, share, and present our diverse South African culture within the Dutch schools and communities.

Learner Participation

During the planning, your child will receive some information for research on topics that will be discussed during the program. Participation is compulsory as this is the purpose of the Exchange Programme. We would like all students to be prepared as this is a great opportunity for cultural exchange.

The focus will be on Global Health whereby they will all participate in discussion and share their understanding of Global Health, and the effect it has on our daily lives, as well as think about what sustainable projects they could get involved in or start in their schools or communities.

Four Goals form the vision of the foundation of Global Exploration.

1. World citizen internship
2. Schools for schools
3. Let's work
4. Global awareness in their own society

TURNING POSSIBILITIES INTO REALITIES

Aims and Objectives

To learn together: The 17 Sustainable Development Goals (SDGs) set out by the United Nations as illustrated in the above picture, form the theoretical underpinning of the program.

The knowledge that students gain during their preparation period can be put into practice by the numerous activities that will be prepared in cooperation with the local students in the host country concerning these goals.

To live together: All participating students stay with Dutch host families or sleep at schools and other alternative accommodations as arranged by the Host.

This way, the students can learn about their daily lives, how to communicate, food and drinks, and how to work in the host country.

To be together: By closely living together for two weeks, the realization of interdependence with others will grow. What happens there – so far away - also influences life in South Africa.
